## MAG ON. MAG OFF.

Next level 3x magnification versatility when you need it for your red dot or holographic sight in an ultra compact, lightweight, and optically crisp package. Integrated quick-release mount allows fast attach/detach from your rail and a patented camlock design quickly engages/disengages magnifier with direct pressure. Adjustable flip mount allows for right or left-handed use.

The Micro3X magnifier will work with any of our red dots but may magnify any existing parallax.  
The Micro3X will not work with prism scopes.
