

**REDESIGNED FOR 2018**

# VIPER HD

SPOTTING SCOPES

## HIGH-END PERFORMANCE AT A MID-RANGE PRICE

**FOR IMMEDIATE RELEASE: January 9, 2018**

**Guelph, ON** – Vortex is pleased to present a new high-end spotter, without the high-end price tag. The completely redesigned **Viper HD Spotting Scope** series is poised to dominate as a best-in-class optic. Packed with features and incredible optical performance, these spotters bring far off subjects in for a closer look with impressive clarity, resolution and colour fidelity.

The **HD optical system** coupled with **XR fully multi-coated lenses** deliver stunning image quality and impressive low light performance. Exterior lenses are protected by **ArmorTek** - an ultra-hard, scratch-resistant fluorine compound that repels oil, dirt and the corrosive salts of fingerprints.

The new ultrasmooth, fluid and sleek **helical-style focus**, dials in your image for ultrasharp viewing, as well as keeping the scope's profile trim for packability. The large surface area of the helical focus is easy to find and operate, even when wearing gloves. The twist up eyecup on the included eyepiece ensures customized eye-relief for viewers with or without glasses.

An adjustable collar allows the spotter to rotate the eyepiece for comfortable, versatile, multiangle viewing. Rubber armoring protects the spotter from impacts and delivers unfaltering durability. Purged with premium **Argon gas**, Viper HD Spotting Scopes feature 100% waterproof, fogproof, dustproof and shockproof performance.

Like all Vortex products, Viper HD Spotting Scopes are protected by a lifetime, unconditional, transferable, no-fault **VIP Warranty**.

SKU	MSRP*	MAGNIFICATION x OBJECTIVE LENS	BODY DESIGN	WEIGHT	LENGTH	EYE RELIEF ADJUSTMENT (mm)	CLOSE FOCUS	FIELD OF VIEW @ 100 YARDS
V502	\$1,549	20-60 x 85	Angled	76.6 oz	17.5"	19.6 - 17.8	36 ft	101 - 50' / 1.9 - 1.0°
